

# Olympics Dashboard

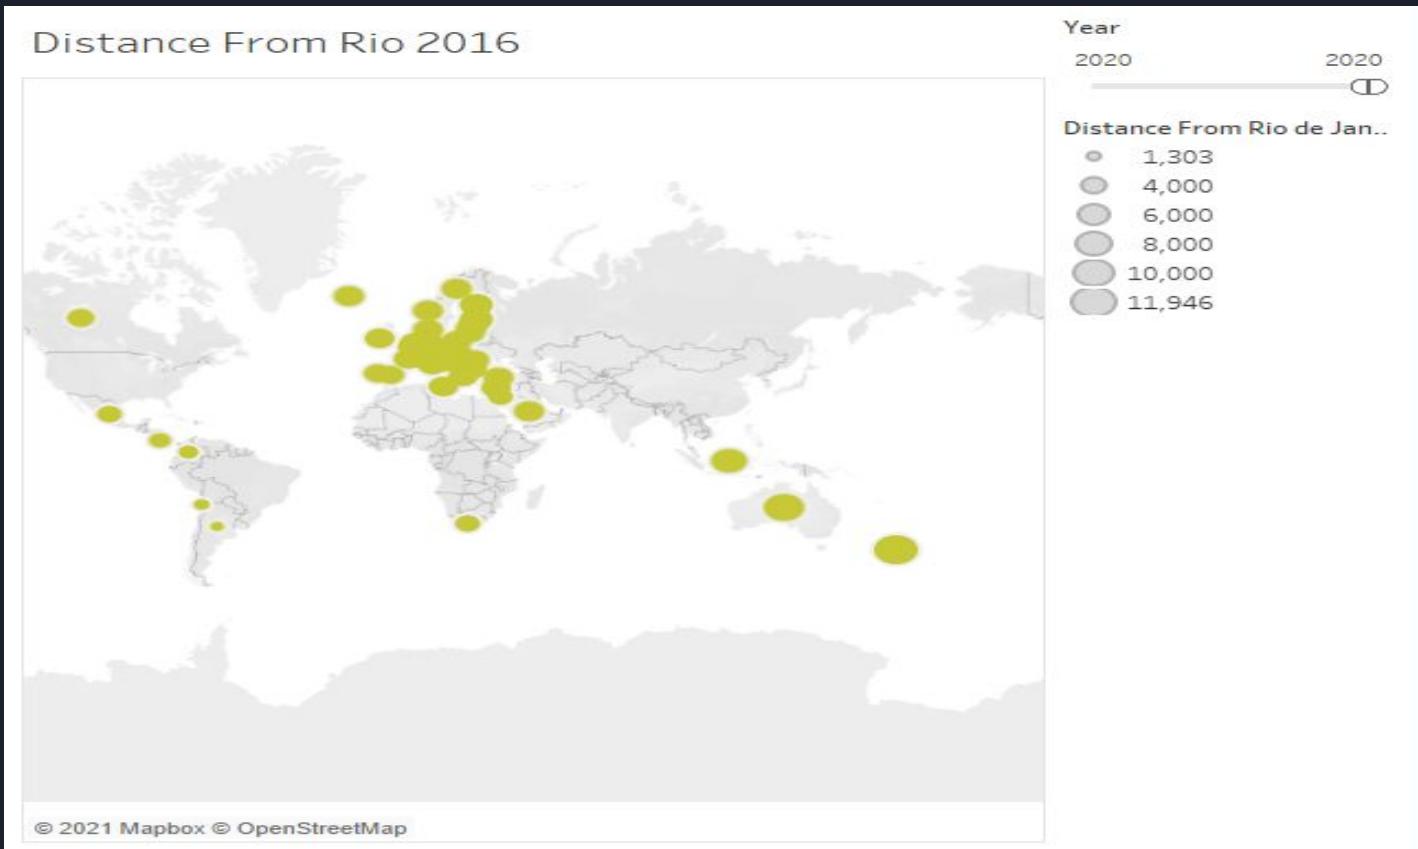

August 2021

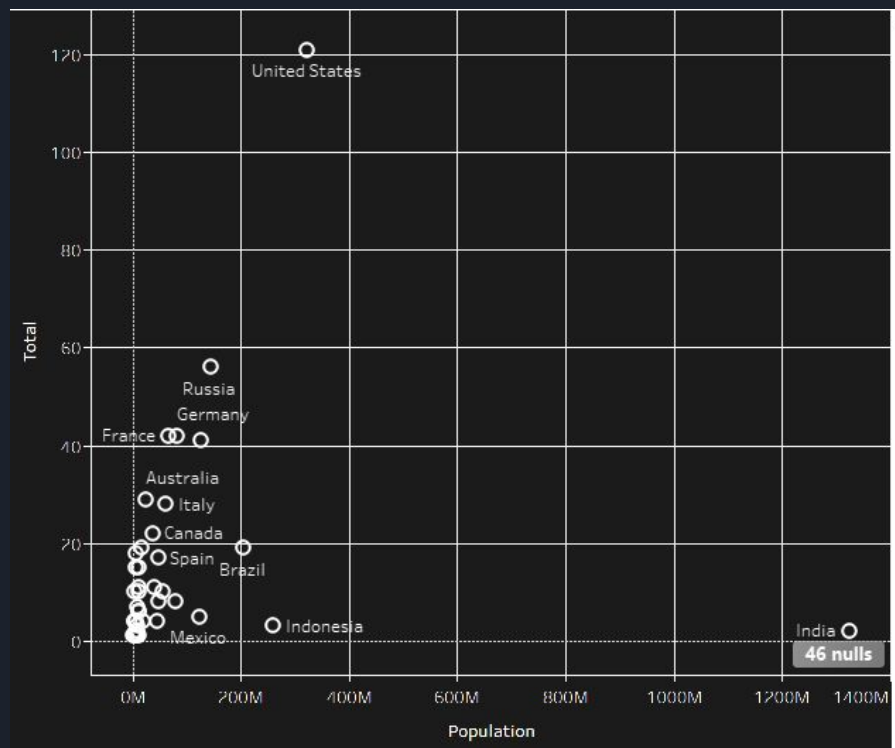

# Tools to be Used

- Tableau
- Matplotlib in Jupyter Notebooks
- Plotly in Jupyter Notebook
  - Plotly has interactive charts that we believe we can leverage to effectively visualize our data over periods of time by country
  - We will leverage this to create GIFs of medal counts vs. various other metrics over time

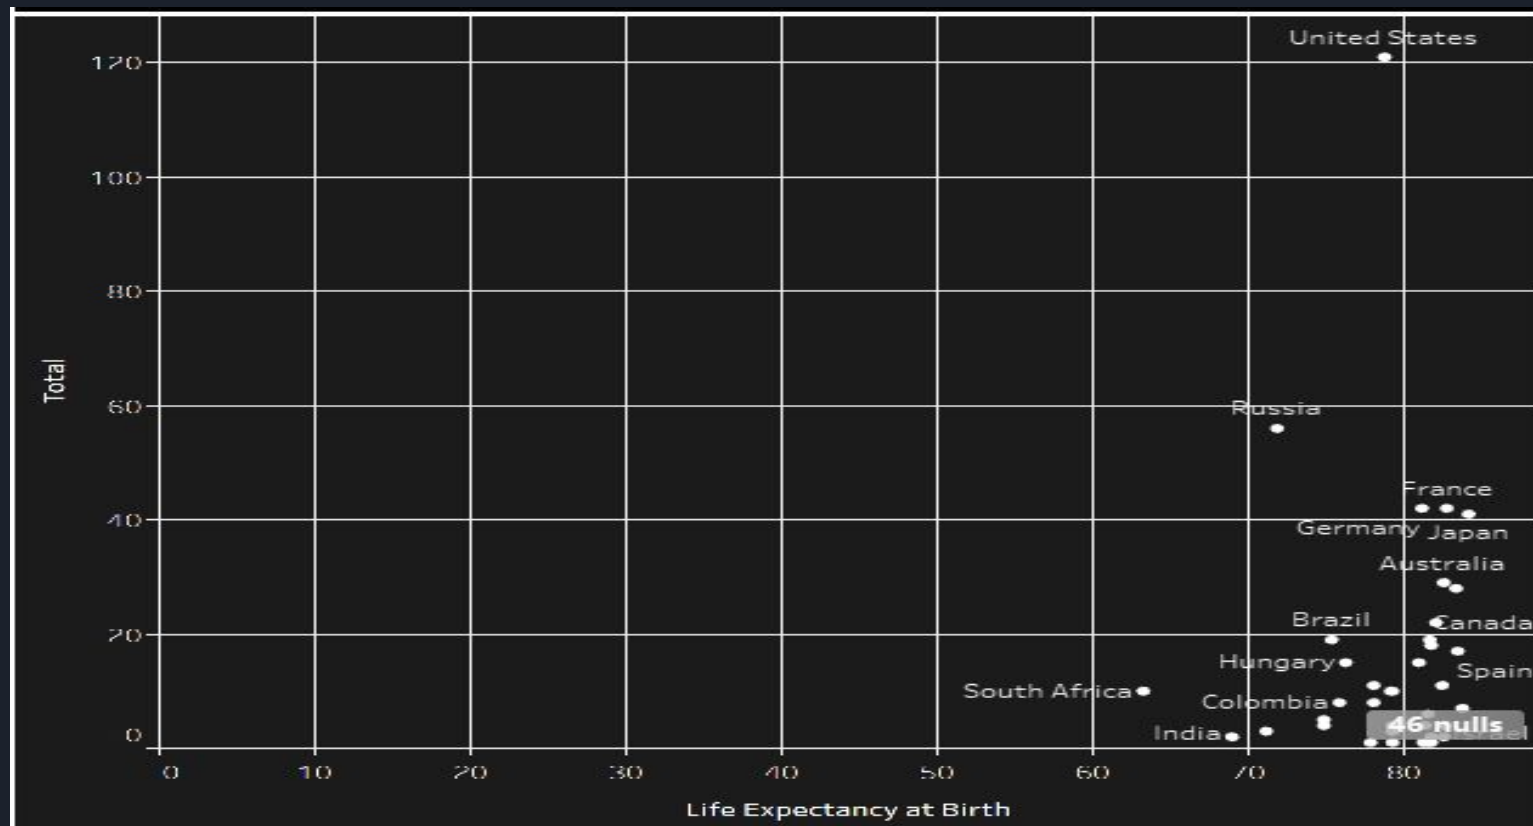

# Distance from Rio 2016

# 2016 Medal Count vs Population

# 2016 Medal Count vs. Life expectancy

More to come!
